Aboodi, E. & Jarosch, H., Towards a unified notation of source parameters 513
Aboudi, J. & Alterman, Z. S., Source of finite extent, applied force and couple in an elastic half-space 47
Aboudi, J., Alterman, Z. S. & Karal, F. C., Pulse propagation in a laterally heterogenous solid elastic sphere 243
Alterman, Z. S. & Aboudi. J., Source of finite extent, applied force and couple in an elastic half-space 47
Alterman, Z. S., Aboudi, J. & Karal, F. C., Pulse propagation in a laterally heterogenous solid elastic sphere 243
Ben-Menahem, A. & Weinstein, M., The *P–SV* decoupling condition and its bearing on the structure of the Earth 131
Ben-Menahem, Ari & Shimshoni, Michael, Computation of the divergence coefficient for seismic phases 285
Briden, J. C., Palaeomagnetic results from the Arrochar and Garabal Hill–Glen Fyne igneous complexes, Scotland 457
Capon, Jack & Green, Paul E., Statistical accuracy of data used in seismic inversion .. 373
Chapman, C. H. & Phinney, R. A., Diffraction of *P* waves by the core and an inhomogenous mantle 185
Corbishley, Derek J., Structure under seismic arrays 415
Crampin, Stuart, The dispersion of surface waves in multilayered anisotropic media .. 387
Crampin, Stuart, A method for the location of near seismic events using travel-times along ray paths 535
Crampin, Stuart, Jacob, A. W. Brian, Miller, Alistair & Neilson, Graham, The LOWNET radio-linked seismometer network in Scotland 207
Creer, K. M. & Ibbetson, J. D., Electron microprobe analyses and magnetic properties of non-stoichiometirc titanomagnetites in basaltic rocks.. 485
Creer, K. M., Petersen, N. & Petherbridge, J., Partial self-reversal of remnant magnetization and anisotropy of viscous magnetization in basalts 471
Datta, Subhendu K. & Shah, Arvind H., Diffraction of *SH*-waves in a spherically isotropic medium by a rigid or fluid spherical core 33
Embleton, B. J. J., Palaeomagnetic results for the Permian of South America and a comparison with the African and Australian data 105
Evans, A. Ll., Geomagnetic polarity reversals in a late Tertiary lava sequence from the Akaroa Volcano, New Zealand 163
Gerver, M. L., Inverse problem for the one-dimensional wave equation 337
Gough, D. I. & Gough, W. I., Stress and deflection in the lithosphere near Lake Kariba—I 65
Gough, D. I. & Gough, W. I., Load-induced earthquakes at Lake Kariba—II .. 79
Gough, W. I. & Gough, D. I., Stress and deflection in the lithosphere near Lake Kariba—I 65
Gough, W. I. & Gough, D. I., Load-induced earthquakes at Lake Kariba—I 79
Green, Paul E. & Capon, Jack, Statistical accuracy of data used in seismic inversion .. 373
Heller, Friedrich, Scriba, Henning & Weber, Max, A furnace for magnetic investigations of rocks 531
Ibbetson, J. D. & Creer, K. M., Electron microprobe analyses and magnetic properties of non-stoichiometric titanomagnetites in basaltic rocks 485
Jacob, A. W. Brian, Crampin, Stuart, Miller, Alistair & Neilson, Graham, The LOWNET radio-linked seismometer network in Scotland 207
Jarosch, H. & Aboodi, E., Towards a unified notation of source parameters 513
Kanasewich, Ernest R. & Montalbetti, James F., Enhancement of teleseismic body phases with a polarization filter 119
Karal, F. C., Alterman, Z. S. & Aboudi, J., Pulse propagation in a laterally heterogeneous solid elastic sphere 243
Keilis-Borok, V. I., Molchan, G. M. & Vilkovich, G. V., Seismicity and principal seismic effects 323
Klíma, Karel & Kulhánek, Ota, The reliable frequency band for amplitude spectra corrections 235
Koch, Karl-Rudolf, Surface density values for the Earth from satellite and gravity observations 1
Kulhánek, Ota & Klíma, Karel, The reliable frequency band for amplitude spectra corrections 235

Pisarenko, V. F., Some applications of the maximum liklihood method in seismology 307
Randall, M. J., SKS and seismic velocities in the outer core 441
Scriba, Henning, Heller, Friedrich & Weber, Max, A furnace for magnetic investigations of rocks 531
Searle, R. C., Evidence from gravity anomolies for thinning of the lithospere beneath the Rift Valley in Kenya 13
Shah, Arvind H. & Datta, Subhendu K., Diffraction of *SH*-waves in a spherically isotropic medium by a rigid or fluid spherical core 33
Shimshoni, Michael & Ben-Menahem, Ari, Computation of the divergence coefficient for seismic phases 285
Spall, Henry, Palaeomagnetism of the Pikes Peak granite, Colorado 427
Vilkovich, G. V., Molchan, G. M. & Keilis-Borok, V. I., Seismicity and principal siesmic effects 323
Weber, Max, Heller, Friedrich & Scriba, Henning, A furnace for magnetic investigations of rocks 531
Weinstein, M. & Ben-Manahem, A., The *P–SV* decoupling condition and its bearing on the structure of the Earth 131
Ziolkowski, Anton, A method for calculating the output pressure waveform from an air gun 137

SUBJECT INDEX

Book Reviews

Introduction to Geodesy 103
Ellipsoidal Fiures of Equilibrium 104
Mathematical Geodesy 104
Introduction to the Solar Wind 541
Physics of the Earth 542
Astronomy and Astrophysics.. 543

Elasticity of Rocks

Stress and deflection in the lithospere near Lake Kariba—I, *D. I. Gough & W. I. Gough* 65
Load-induced earthquakes at Lake Kariba—II, *D. I. Gough & W. I. Gough* 79

Geomagnetism

On the secular pole motion and the Chandler wobble, *Benoit B. Mandelbrot & Keith McCamy* 217
Separation of lunar daily geomagnetic variations into parts of ionospheric and oceanic origin, *S. R. C. Malin* 447

PAGE

Gravity

Surface density values for the Earth from satellite and gravity observations, *Karl-Rudolf Koch* 1
Evidence from gravity anomalies for thinning of the lithosphere beneath the Rift Valley in Kenya, *R. C. Searle* 13

Palaeomagnetism

Palaeomagnetic results for the Permian of South America and a comparison with the African and Australian data, *B. J. J. Embleton* 105
Geomagnetic polarity reversals in a late Tertiary lava sequence from the Akaroa Volcano, New Zealand, *A. Ll. Evans* 163
Palaeomagnetism of the Pikes Peak granite, Colorado, *Henry Spall* 427
Palaeomagnetic results from the Arrochar and Garabal Hill–Glen Fyne igneous complexes, Scotland, *J. C. Briden* 457
Partial self-reversal of remanent magnetization and anisotropy of viscous magnetization in basalts, *K. M. Creer, N. Petersen & J. Petherbridge* 471
Electron microprobe analyses and magnetic properties of non-stoichiometric titanomagnetites in basaltic rocks, *K. M. Creer & J. D. Ibbetson* 485

Research Notes

A furnace for magnetic investigations of rocks, *Friedrich Heller, Henning Scriba & Max Weber* 531
A method for the location of near seismic events using travel-times along ray paths, *Stuart Crampin* 535

Seismology

Diffraction of *SH*-waves in a spherically isotropic medium by a rigid or fluid spherical core, *Subhendu K. Datta & Arvind H. Shah* 33
Source of finite extent, applied force and couple in an elastic half-space, *Z. S. Alterman & J. Aboudi* 47
Enhancement of teleseismic body phases with a polarization filter, *James F. Montalbetti & Ernest R. Kanasewich* 119
The *P-SV* decoupling condition and its bearing on the structure of the Earth, *A. Ben-Menahem & M. Weinstein* 131
A method for calculating the output pressure waveform from an air gun, *Anton Ziolkowski* 137
Diffraction of *P* waves by the core and an inhomogeneous mantle, *C. H. Chapman & R. A. Phinney* 185
The LOWNET radio-linked seismometer network in Scotland, *Stuart Crampin, A. W. Brian Jacob, Alistair Miller & Graham Neilson* 207
Structure under seismic arrays, *Derek H. Corbishley* 415
SKS and seismic velocities in the outer core, *M. J. Randall* 441
Towards a Unified notation of source parameters, *H. Jarosch & E. Aboodi* 513

Copenhagen Conference Papers

The reliable frequency band for amplitude spectra corrections, *Ota Kulhánek & Karel Klíma* 235
Pulse propagation in a laterally heterogenous solid elastic sphere, *Z. S. Alterman, J. Aboudi & F. C. Karal* 243
Exact ray theory and its application to the reflection of elastic waves from vertically inhomogeneous media, *G. Müller* 261
Computation of the divergence coefficient for seismic phases, *Michael Shimshoni & Ari Ben-Menahem* 285
Computation of theoretical seismograms, *I. M. Longman* 295
Some applications of the maximum liklihood method in seismology, *V. F. Pisarenko* 307
Seismicity and principal seismic effects, *G. M. Molchan, V. I. Keilis-Borok & G. V. Vilkovich* 323
Inverse problem for the one-dimensional wave equation, *M. L. Gerver* 337
The 440-km discontinuity, *I. Lehmann* 359
Statistical accuracy of data used in seismic inversion, *Jack Capon & Paul E. Green* .. 373
The dispersion of surface waves in multilayered anisotropic media, *Stuart Crampin* .. 387
Summaries of other papers presented at the Copenhagen Conference 1969 403
